

HOLBROOK OVERLOOK

Trail name: Outer East Loop

Trailhead address or coordinates:

2930 Big Mountain Road
Whitefish, MT 59937

Entry fee: \$0

Date assessed: May 30, 2024

Trail Information

Trail distance: 1.67 miles

Trail type: Multi-loop

Total elevation gain: approx. 230 ft.

Minimum trail width: 36 in. This trail maintains a consistent width of approx. 38 in.

Bridge crossings: There are no bridges in this trail system

Man-made obstacles: There are no obstacles limiting access to trails

Stairs: There are 7 steps to go directly from the overlook to the picnic table, with the tallest one being 9 in. There is a path as well, but it is not a direct route. There are no stairs in any other location at the trailhead or along the trail

Pinch points: There are no pinch points along this trail

Switchbacks: This route contains 3 switchbacks and 1 turn with a 2.7% cross slope. You will encounter loose rocks and bermed sides in the switchbacks along this trail (pictured below on Outer West Loop information) and occur at both uphill and downhill directions of travel

Activities allowed: Hiking, biking

Trail surface: Natural with loose rocks, pinecones, and occasional tree roots

Maximum cross slope: 5.1% or 18.5°

Maximum trail grade: 5.2% or 19° with an accompanying 2.7% cross slope

HOLBROOK OVERLOOK

Route highlighted in yellow

Trail name: Outer West Loop

Trailhead address or coordinates:

2930 Big Mountain Road
Whitefish, MT 59937

Entry fee: \$0

Date assessed: May 30, 2024

Trail Information

Trail distance: 3.75 miles

Trail type: Multi-loop

Total elevation gain: 520 ft.

Minimum trail width: 25 in. This trail starts wide (38-40 in.) but as you continue onto Outer West Loop, it becomes narrower and less maintained

Bridge crossings: There are no bridges in this trail system

Man-made obstacles: There are no man-made obstacles

Stairs: See trail information for Outer East Loop

Pinch points: There is one pinch point at the very bottom of Outer West Loop - 24 in. of passing space between rocks and the edge of trail, pictured right

Activities allowed: Hiking, biking

Trail surface: Natural with loose rocks, pinecones, tree roots, and downed branches

Maximum cross slope: 4.6% or 16.6°

Maximum trail grade: 4.2% or 15°

Switchbacks: This trail contains many steep and tight switchbacks, with travel in both directions. Some switchbacks have potential for consequences while coming out of the turn. Some switchbacks contain loose rocks and other debris, pictured left

Additional notes: As you continue downward on this trail, the overall width and maintenance of the trail decreases. There are portions of exposure to the downhill side and some erosion on the uphill side. The bottom portion of this trail is a double track until it turns to continue back up to the trailhead

HOLBROOK OVERLOOK

Parking Information

Parking lot surface: Gravel and loose small rocks

Distance from furthest parking spot to trailhead: Approx. 250 ft.

Total number of parking spaces: Approx. 40 spaces between two parking lots

Are there accessible parking spots? There are 2 accessible spots, pictured right. Each space is 10 ft. 9 in. wide

Bathrooms & Amenities

Bathrooms: 1 pit toilet at the trailhead with grab bars. There is a 1-1.5 in. height difference between the trail and bathroom entrance

Water availability: No water source along this route

Food availability: No food along this route

Picnic tables or benches: There are 4 benches and 1 picnic table at the trailhead overlook. There is a bench .3 miles into outer east loop, following the direction of travel, but the access path is uphill and narrow at 18-20 in. wide. There is 1 picnic table with wheelchair accessibility (pictured left) but similar to the bench, the access path is narrow

Shade levels: The parking lot will be mostly sunny, but the route has shade cover, especially as you move down the mountain.

“Just in Case” Safety Information

Cell service available: Yes

Group responsible for trail maintenance: Whitefish Legacy Partners in partnership with the US Forest Service
